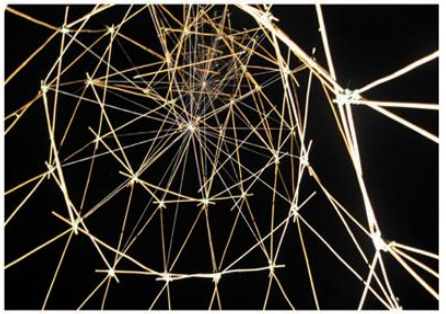
EASA ITALIA009_EVOKE THE SPIRIT



The very simple technology of building from bamboo sticks and rubber-bands showed how something weak can become strong .... and showed that collaborative work and process is more important than a perfect product

Simple materials allowed us to invite local citizens to work with us ... they offered their help and told us more stories of their own. The objects that were merely there to evoke the spirit of the town soon became a very popular and much appreciated addition.

TUTORS: Marcin Mateusz Kolakowski, Alan Thompson

PARTICIPANTS: ,Arusyak Manvelyan, Natalia Charnova, Siarhei Rehnia, David Kovaric, Santa Lazukina, Ansis Sinke, Julija Jureviciene, Filip Josifovski, Bernice Casha, Hanna Kozlowska, Kristina Kralova, Mikai Sladek, Dicle Uzunyayla, Kseniia Pundyk
