

University College London – Tohoku Organic Chemistry Symposium
Aoba Science Hall
March 12 (Mon), 2018

Program

Chairperson: Prof. Hayashi (first part), Prof. Iwamoto (second part)

12:55 – 13:00 Opening Remarks Prof. Yujiro Hayashi (Tohoku University)

13:00 – 14:00

Green chemistry: enzymatic and chemoenzymatic strategies in synthesis

Prof. Helen Hailes (University College London)

14:00 – 14:30

Recent progress on catalytic skeletal rearrangement reactions

Prof. Itaru Nakamura (Tohoku University)

14:30 -15:00

Atypical Oxidations of Atypical Substrates to Typically-Activated Esters

Prof. Martin Lear (University of Lincoln)

15:00 – 15:20 Break

15:20 – 15:50

π -Extended thienoacenes for organic semiconductors: synthetic chemical approaches

Prof. Kazuo Takimiya (Tohoku University)

15:50 -16:50

Target Synthesis: 1,2-diamines and infraluciferins

Prof. Jim Anderson (University College London)

16:50-17:00

Introduction of University College London

Prof. Jim Anderson (University College London)

17:00 – 17:05 Closing Remarks Prof. Takeaki Iwamoto (Tohoku University)

18:30 Dinner at Kirakutei (喜良久亭) 022-223-0555

Prof. Hailes, Anderson, Lear, Takimiya, Nakamura, Terada, Iwamoto, Hayashi
